In one of the battles between the Russians and Tartars a private soldier of the former called out: "Captain, I've caught a Tartar!" "Bring him along then!" answered the officer. "I can't, for he won't let me!" was the response. Upon investigation it was apparent that the captured had the captor by the arm, and would not release him. So "catching a Tarter" is applicable to one who has from an an antagonist too powerful for him.

"Boadhead," as denoting one who has free entrance to places of amusement, comes from Pompeli, where the checks for free admission were small ivory death's heads. Specimens of these are in the museum at Naspels.

FIGHT WITH MINERS.

Attempt to Arrest Employe of Excel Mines in Bell County Results Fatally.

Misdlesboro, Ky.,July 14.—In a fight this afternon at the Excelsior mines, three miles north of this city, Officer Joseph Maning was killed. Officers Turner, Manning and several deputies, armed with a warrant for the arrest of Hiram McCreary, charging him with some minor offense, left this city late this afternoon for Excelsior, where McCreary is employed as a miner. When they arrived at the mines McCreary and his friends opened fire, which was returned by the officers, and when the smoke cleared away Manning was found to be wounded, and died shortly afterward. afterward.

an offensive campaign. They can make offers to the strikers or can hire men at other plants and in this way weaken the ranks of the Amalgamated Association. Provision has probably already been made for this to some extent. The shutting down of so many plants in Great Britain and in Germany ought to release a large number of skilled workers who may accept the higher wages and permanent employment offered in America. The contract labor ranker in the woman's? It is a time-offered in America. The contract labor may be a suppressed in numbers large enough to count in the long run.

The strike, it must be admitted, is a serious one from every point of view. It is begun at a clime of the greatest business activity when there will be heavy

osses to the steel syndicate through the inability to fill contracts. It is estimated that this will run up to \$50,000 a day, a will run up to \$50,000 a day, a sum large enough to count even with the gigantic steelfrus; of the biffers with other Leaders of will affect all the allied industries, the mines and the transportation lunes not to unaffer who has Risen Without indusence mortation lunes not to unaffer with the second with the second with the language of the language with the big second with the language with the l

There is no chance to continue the organizing of the steel workers at the Carnegie and other non-union plants, and the fight must be fought with such members and such resources, as the association now possesses. On the face of it, the two forces are not equally matched. The carnegie plants are the largest and best equipped of all the great works, and if Mr. Frick could keep them open and running at the time of the Homestead strike backep them open and running at the time of the Homestead strike been so so that the fight of the strike resonance to keep up production now. Sabbath Descration

Sabbath Descration.

The distinguishing marks between the sabbath day and week days are vapidify passing away. The good old fashioned Sunday is a thing of the tpast. Instead of attending Sunday School and church in the morning and spending the evening in quiet waiks and conversation, or reading some good book, we have a howling yelling mob playing baseball or attending some Sunday matinee. People will go to see a ball game and stand for hours in the blazing aum and yell themselves hourse, who could not be confortable in church the sabbath Day, to keep it holy," seems to be utterly forgotten by people of the present day.

PURINA HEALTH FLOUR.

"BRAIN BREAD." PURINA MILLS ST. LOUIS

For Malaria, Chills and Fever

THE BEST PRESCRIPTION IS

Grove's Tasteless Chill Tonic.

The formula is plainly printed on every bottle—hence you know just what you are taking when you take Grove's. Imitators do not advertise their formula knowing that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is in a Tasteleer form. The Iron acts as a tonic while the Quinine drives the malarin out of the system. Any reliable druggist will tell you that Grove's is the **Original** and that all other so-called Tastelees Chill Tonics are imitations. An analysis of other chill tonics show that Grove's is superior to all others in every respect. You are not experimenting when you's take Grove's—its superiority and excellence having long been established. Grove's is the

Crescent Sanitarium

The Crescent Sanitarium wishes to call the attention of the public to the fact that it has been open for the reception of patients for a year and a half, during which time over 150 surgical operations were performed without a death or a single case of blood poisoning. Patients have all advantages of thospital facilities, and at the same time enjoy all comforts of home life thus avoiding the restrictions and publicity necessary in public hospitals. A corps of trained nurses are in contant attendance, thus avoiding delay in gratifying the slightest wants of the patient.
